Fact: Travel is a \$7 Trillion Per Year Industry – and Growing!

Travel Booking Has Become Internet Based And Is Now The Web's #1 Money Making Machine

Picture this: you owning your very own personalized on-line travel store and getting paid every time your friends, family or co-workers rent a car, go on vacation, book a cruise or buy an airline ticket. Given the choice – who would they rather book their travel through – you, or a large, impersonal corporation? The answer is obvious - **you!!**

And people don't just go on one vacation in their lifetime. They will book with you year after year, time after time. Sooner or later, when they see the kind of money you're making, they will want their own travel business and **your commissions will just keep growing and growing.**

This is a real opportunity to become part of a powerful and lucrative program that can provide you with an **extremely healthy income...for the rest of your life.**

My sister just booked a cruise on my travel site. I just got paid \$100 for telling her about my site. This is for real!

Get Ahead of the Trend

Remember the explosion in the filtered water business and the phone card business, as well as countless other trends you may have spotted, but didn't jump on the wave?

Well the travel industry is experiencing something equally as explosive. And only a relative handful of people are aware of the existence of this exclusive opportunity - much less **the massive income it provides.**

By placing yourself at the start of the growth momentum of this industry, and our company, you will be setting yourself up for **unlimited income potential!**

The New Way to Travel – and Earn Residual Income

The everyday walk-in travel store is rapidly becoming a thing of the past. **80% of all travel is now booked online.** Other on-line companies spend upwards of 60% of every revenue dollar to drive traffic to their site. **But we'd rather put that money in your pocket!**

You've probably heard that word of mouth is the best advertising there is. Well do you get paid a referral fee to send someone to IBM or Wal-Mart? No! But with Traverus, you get a referral fee every time you sign someone up in their own travel business! What could be easier?

What makes this program **one of the most successful in the industry?** The short answer is: **You!** We use word of mouth, the process of duplication, and some of the most competitive commissions available, so that thousands of people – including your friends, families and work

acquaintances - will all benefit when they book their vacations through your site. It's really that simple!

I have joined this really affordable program. Thank you very much for showing me how easy it is to make money while I'm sleeping!

What accounts for this huge explosion? There is a mass population of baby boomers who are starting to retire - **more than one billion and growing!** Statistics show that they now have more money to spend than generations before. And what do you think they're spending their money on, in record amounts? You guessed it - **travel!**
